DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Greeley on May 13, 2005.

The application has been amended as follows:

Withdrawn claims 12-14 are hereby canceled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant's amendment has overcome the rejection and objections of the previous office action. Specifically, the new independent claim requires at least one raised portion and at least one adjacent non-raised portion wherein the raised portion forms a closed loop around the circumference of the roller element. These features are not disclosed or suggested by the prior art of record. Therefore, in light the amendments to the claims and drawings and the applicant's arguments regarding the amendment, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
